

Warranty Conditions Lexan* XL 10 Sheet

Warranty

Ten (10) Year Limited Written Warranty

If Lexan* XL10 sheet breaks within ten (10) years from the date of sale due to manufacturing defect and subject to the conditions set forth herein, then the purchaser, or a fabricator designated by the purchaser, will receive free flat replacement Lexan XL10 sheet, provided the failed sheet, original sales receipt and this warranty are returned to SABIC Innovative Plastics Company or the original dealer. If a replacement sheet cannot be provided within fourteen (14) days, SABIC Innovative Plastics may opt to refund the original sheet purchase price.

If excessive yellowing or loss of light transmission as defined herein occurs during a seven (7) year period from the date of sale due to manufacturing defect and subject to the conditions set forth herein, SABIC Innovative Plastics will provide flat replacement Lexan XL10 sheet to the purchaser or a fabricator designated by the purchaser according to the following schedule. If excessive yellowing or light transmission as defined herein occurs after seven (7) and before ten (10) years from the date of sale due to a manufacturing defect and subject to the conditions set forth herein, SABIC Innovative Plastics will replace the material at a cost to the purchaser of 1/120th of the original cost for each month from the date of sale. The failed sheet, original sales receipt and this warranty must be returned to SABIC Innovative Plastics or the original dealer. If a replacement sheet cannot be provided within fourteen days, SABIC Innovative Plastics may opt to refund the pro-rated cost of the original sheet.

This limited written warranty is subject to the following conditions:

This warranty applies only to sheet fabricated, installed, and cleaned according to SABIC Innovative Plastics recommendations. It is important to note that Lexan XL10 sheet is designed for weathering resistance and does NOT provide abrasion resistance; no warranties are extended on the abrasion resistance characteristics of this product. The warranty does not cover (re)installation or fabrication expenses or any other direct or indirect loss(es) which may result from the sheet failure.

Breakage: This warranty against breakage applies only to sheet fabricated, installed, and cleaned according to SABIC Innovative Plastics recommendations. Lexan XL10 sheet has 30 times the impact strength of acrylic. However, no material can be described as unbreakable, for it is impossible to account for all types of usage.

Yellowing and Light Transmission: The warranty against yellowing and light transmission applies only to Clear Transparent (112) Lexan XL10 sheet. The Yellowness Index (YI) of Lexan XL10 sheet, cleaned according to the recommendations of SABIC Innovative Plastics, shall be less than 5 during a five-year period from the date of sale, and shall be less than 10 during a ten-year period from the date of sale, as determined according to ASTM D1925, as measured with a Gardner Colorimeter (Instrument Conditions: Illuminant C, 2° Observer). The light transmission characteristics of Lexan XL10 sheet, cleaned according to the recommendations of SABIC Innovative Plastics, shall not decrease by more than 5% during a five-year period from the date of sale, and shall not decrease by more than 7% during a ten-year period from the date of sale, when tested by the procedure specified in ASTM D1003, as measured by a Gardner Colorimeter (Instrument Conditions: Illuminant C, 2° Observer). This warranty is limited to excessive yellowing and loss of light transmission due to the degradation of Lexan XL10 sheet and does not cover yellowing or light transmission losses due to dirt, atmospheric deposits, or abrasion. You should be aware that all outdoor materials are subject to irreversible depositions of atmospheric elements and can be expected to show signs of hazing eventually. Regular, proper cleaning will significantly reduce, but not eliminate, that process. (See reverse side for cleaning and maintenance instructions.) This warranty does not cover abrasion or scratching.

THE WARRANTIES STATED IN THIS PUBLICATION ARE THE ONLY WARRANTIES MADE BY SABIC INNOVATIVE PLASTICS WITH RESPECT TO LEXAN XL10 SHEET AND ARE IN LIEU OF ALL WARRANTIES, WRITTEN OR ORAL, STATUTORY, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE. SABIC INNOVATIVE PLASTICS SHALL NOT BE LIABLE FOR ANY SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES ARISING OUT OF THE USE OR APPLICATION OF LEXAN XL10 SHEET WHETHER A CLAIM FOR DAMAGES IS BASED UPON WARRANTY, CONTRACT, TORT OR ANY OTHER LEGAL THEORY. UNDER NO CIRCUMSTANCE SHALL SABIC INNOVATIVE PLASTICS BE LIABLE FOR ANY AMOUNT GREATER THAN THE ORIGINAL PRICE PURCHASER PAID FOR THE LEXAN XL10 SHEET.

THE REMEDIES PROVIDED HEREIN ARE PURCHASER'S SOLE AND EXCLUSIVE REMEDIES.

Notice: This dealer is authorized to fulfill the above obligations of this warranty to the purchaser at the expense of: SABIC Innovative Plastics, One Plastics Avenue, Pittsfield, Massachusetts 01201 (1-800-451-3147).

This limited written warranty must be completed by the dealer at the time of sale.

Warranty

Cleaning Procedures

Lexan sheet, like all plastics should be cleaned periodically. A regular, once-a-year cleaning program will help prevent noticeable weathering and dirt build up. The proper procedure for field cleaning is to sponge or spray on Formula 409¹ household cleaner full strength, followed by a cold water rinse. This will remove dirt and grime and restore clarity to the sheet.

For more information
call: (800) 451-3147.

Lexan* Tough
Polycarbonate Sheet Virtually
Unbreakable

Cleaning Procedures

1. Rinse sheet with lukewarm water.
2. Wash sheet with a mild soap and lukewarm water.
3. Use a soft cloth or sponge and gently wash to loosen remaining dirt and grime. DO NOT SCRUB or use brushes or squeegees: the coating on Lexan XL 10 sheet is UV resistant. It is not a mar-resistant coating.
4. Repeat rinse and dry with a soft cloth to prevent water spotting.
5. Do not clean in direct sunlight.

IMPORTANT: If a material is found to be incompatible in a short-term test, it will usually be found to be incompatible in the field. The converse, however, is not always true. Favorable performance is no guarantee that actual end-use conditions have been duplicated. Therefore, these results should be used as a guide only and it is recommended that the products be tested under actual end use conditions by the user.
